ET 4000

ET 4000

Escalate Trailers from Bil-Jax save loading and unloading equipment time since the deck hydraulically lowers to ground level. Equipment can be loaded by one person, even in inclement weather.

In addition, these trailers reduce equipment damage common with ramp-style and tilt-up trailers. This all adds up to more time on the job.

Each trailer tows easily due to the low center of gravity. This provides a smooth ride no matter the height or bulk of the equipment, or the traveling surface.

With Escalate Trailers from Bil-Jax, equipment only has to go up a six degree incline. This makes it easy for one person to load and unload equipment and reduces the amount of time involved.

Escalate Trailers provide the safest way to move light and mid-sized equipment. There are four different models with carrying capacities from 4,000 lbs. to 12,000 lbs. which fit a wide range of equipment including: skid steers, boom lifts, scissor lifts, mini excavators, small rollers, floor saws and trenchers.

ET 5000 - 12,000

Featuring a welded heavy duty frame, powder coated paint finish and a heavy duty diamond treaded plate deck, this trailer is manufactured to give years of durable, reliable service.

In today's busy world your customers need the safest most productive way to move their equipment from one job site to another. Escalate Trailers are designed to provide easy one person loading and unloading.

The adjustable hitch on the trailer makes it possible for the operator to move the coupler to accommodate any hitch height on the towing vehicle. This operation is as simple as removing two bolts, adjusting the coupler and replacing the bolts.

ET 12,000

The wide deck on the ET 12,000 allows for more equipment to be loaded at one time. Larger equipment can also be accommodated with this trailer.

The six degree slope and low ground clearance allows equipment to be loaded easily.

Escalate Trailers have a heavy-duty diamond treaded steel deck and are finished with powder-coated paint to provide years of reliable service. The controls are located on the driver side to provide easy operation.

ET 7000

TIE DOWNS

All equipment can be secured properly with a series of tie downs which are standard on all Escalate Trailers.

OPTIONAL EQUIPMENT

- Spare Tire
 - Mounting Bracket for Spare Tire
 - Charger
 - Tool Box
- (Optional on ET 4000 and ET 5000W Standard on ET 7000)

APPLICATIONS

- Appliances
- Backhoes
- Boom Lifts
- Compactors
- Fork Lifts
- Generators
- Lawn Mowers
- Mini Excavators
- Off Road Vehicles
- Party Equipment
- Personnel Lifts
- Pressure Washers
- Scissors Lifts
- Skid Steer Loaders
- Small Farm Equip.
- Tillers
- Trenchers
- Vending Machines
- Much More Equipment

Due to continuous product improvements, we reserve the right to make specification and/or equipment changes without prior notification or obligation. The photographs and drawings in this brochure are for illustrative purposes only. Refer to the appropriate BIL-JAX Escalate Trailer Operator's Manual for instructions on the proper use of this equipment. Failure to follow the appropriate Operator's Manual when using this product, or to otherwise act irresponsibly, may result in serious injury or death.

Available from Bil-Jax . . .

Summit Series booms redefine the trailer boom market. Each user-friendly model can be customized with numerous options. Telescopic and articulating models are available in varying working heights.

This Changes Everything. The X-Boom series has a high performance 4WD self-propelled system. With many standard features and available options, the X-Boom line is a market leading product at a very competitive price.

And more...

Bil-Jax, Inc. is a major supplier of all types of aerial lifts, elevating trailers, event products, material lifts and carts, rental related equipment, and the original yellow scaffolding.

We warrant products manufactured by Bil-Jax to be free from defects in material and workmanship under normal use and service. We will repair or replace the item, at our option when proven to be defective, within one year from date received by customer. We will neither assume nor authorize any other person to assume for us any other liability. This warranty shall not apply to any equipment which has been repaired or altered outside of our factory in any way so as in our judgement to affect its stability or reliability, nor which has been subject to misuse, or negligence. Written notice must be received by us and acknowledged, before any units will be accepted for return, and units must be returned prepaid. This warranty is in lieu of all warranties, expressed or implied. Consult Bil-Jax about warranty on products other than those specified.
